Gentemen of the City Council : Telementer of me city pr voles that upon the third Monday of March, at 10 o'clock in the foren n, of each year, the newly elected city we criticant shall a semble, take the oath of effice and their seals for the ensuing municipal

or criticient such a semble, take the cath of effect and that reads for the ensuing municipal year.

By the suffrage of the people, you have been selected as 16 membra, and one mpliance with the charter have assembled to take your onlike 1 fulfice suid seets, and as the charter portices that a mayor shall be elected who shall preside ever your deflicerations during the year, the comes my dury by the will of the people to hill has position, and I welcome you to be detien of the flowerment of '93, and sincerely trust that our labors may meet the just expectations of our fellow citizens.

The people of a vigorous community like our expect much of their public servents, and we would be unfaithful to our trust did we not resolve to renear mit the city which has honored us, cipable, includent service; and as it has become the custom, we will review the work of the past year as briefly as consistent with the work to the past year as briefly as consistent with the work of the past year as briefly as consistent with the work of the past year as briefly as consistent with the work of the past year as briefly as consistent with the work of the past year as briefly as consistent with the work of the past year as briefly as consistent with the work of the past year. I believe that you will be well pleased with the showing.

We by useen by this report that \$50,000 minicipal bond, bearing six per cent, interest, have been cancelled and as many more issued bearing four per cent, asving in interest \$1000, and there will mature Jaurary 1, 1894 \$100,000 more bearing six per cent, which will have to be repowed, and which can be a too over four our cont, thus making another saving of \$2,000 on the interest account, or a total saving in the falterest account of three thousand per year.

in the interest account of three thousand per year.

It will be seen that the total liability of the city, exclusive of trust fuotis and what is provided for by the sinking found. Is only \$650,000, \$500,000 of which is the water loan.

The treasurer tells us that of the loan of \$1,000,000 in 'avor of the E. & N. A. Youd, and which is seen well by the Malioe Central, \$35,000 have stready been pied, and that in all probability the balances will be paid by the Malioe Central on or before maturity, which is January I, 1894, Lus relieving us of that contingent II hilly. I feel that you and the citizens generally will be pleased with the financial showing.

City: Sollettor.

This officer reports several cases in which the
for the following the fact care either as plaintiff
or the following, some of which have been settled
in favor of the City, and some are still pruding
in court. in court.

The reports having been called upon to perform a very man't larger amount of work the past pear than lu the year just préceding.

He has itone faultéel service in all matters brought to bis noi 0, and by always ready and witing to do all and even juste them his part of the work.

the work.

He has done very efficient work in the inter-

the has done very efficient work in the interest of the City, by ore the light-lattice, this wheter, having had to a pend considerable time there. His ripart will be found interesting.

Pamper.

This is one of the most important deportments in the city, important from the face that there has to be more discretion, used in hending the tonds of this cep riment than many of the others—and tills win pleasure that I find that, notwithst and in the reverse coll weather we have had this winer the Overseers have been able to keep within their appropriations, and win had a bo area on nearly one thousand dollars left over.

This sho is that they it oroughly undersand its situation which they are constantly placed in, and are ablue to handle matters in a business like manner.

City Physician. This officer reports the health of our unfortunate poor as having been very good the past year,—any four cases of dyptood fever and one case of dishibitoria.

Only six deaths occur and during the year, two from consumption, two of spoplexy, one of cancer, one from neart disease.

The whole number of casts made 411, number of different patents 31. He also has a good word to say of your superintendent.

Too much importance riunot be attached to our admirable set of system, as it is the principal education which the great mass of our people ere roceive.

The same high rank of educational attainments of the same high rank of educational attainments. people ever roceive.

Signo,000.

The same high rank of educational attainment that has always characterized our city has been maintained. The department is in a pro-perous condution. Your enterprising an open the central amount in permanentent is keeping new with the time in the general amount in the general amount in general many in the provenence of the day, as a visit to the actions will readily show a sality and training of the scholars in zeroasy on the textlers and the propagates and deportment.

The aclosed property, under the care of the good poles to expend harpe sums on those, which we hope in the next future to test and apply the givenceds towards, any exchool building in which to consolid de some lifteen recamb year, where modern july rovements of light, heat and vestilation, ann, above all, complete sanitary carrangements, in the expense of the new building can to obtained from the sale of the old houses and lots.

It will to a great favor to the schools to have the mean time, the sgent is keeping the present buildings in the best post ble condition.

The report of the Fire Commissioners will be

Fire De jartment,

The report of the Fire Commissioners will be found to be very clear and comprehensive. It explains very fully the improvements which have been made during the last year. Among them are new ladder funch; one new two horse hose wagon capable of carrying two thousand test of hose; and one single horse hose wagon, which was placed on Hammond treet, any which was placed on thousand cet of hose.

They we ammond that he had a support of the second of th They recommend that he hose company on State street be changed to a horse hose carriage. State street be changed to a horse hose carriage, after which they talk to fire department will be first class and abus to levery fell lent work. Their report will be foun I very interesting. I would recommend that are very much more rigid discipline be manipulated in the department, as he from which the department is in excellent condition.

Horber Haster.

The report of the harrar meater gives the date of the opening of the river to maybration as April 2, and closing as December 19, remaining open 261 dayl, during which time 2158 vessels of all classed as December 19, remaining open 261 dayl, during which time 2158 vessels of all classed arrived—locat tonnage 736, 574, making a scan over the previous year of 266 vessels within homoge of 20, 233.

To be abroar master help reformed his dary in a conscientious manner! He has gaused many rocks and obstractions do be removed from the bed of Kenduskeak; striam, which have lain there for years, which are the second of the most important factors in promoting the good health of its citizens. And for his reason, if for no other, should be fostered and enouraged. The Superintedent of Sewers tells you in his report limit be has overdrawn some 27000 60 this year, that there has been expended in beliefly out exsepted and repairing \$12,833 51. [Totals \$30,183 \$2. Of this \$17,165 31, about \$7000, was for extraordinary work, and work not wholly contemplated in the appropriation. Soon after I easimple the position as Publi Magistrate of the city last spring, I was waited upon by the Secretary of the Board of Health, who conducted it in the appropriation. Soon after I causing the position as Publi Magistrate of the city last spring, I was waited upon by the Secretary of the Board of Health, who conducted the other health of the state of the dealth of Book lying between Grove and North Park streets, where we found a very myastifactic ty coldition of affairs flound that in this locality which was an according to the same condition. The same condition of safety and the position of the safety which was done of the call to the health be a feet of the call to the latent of the call that he had been collected fr

the broken out with the department's snow plows.

It is for this and many other reasons, which make it alonat impossible to estimate the expense this department will be to during the tear. The commissioner's report, which has been submitted, will be found to be made out in detail, so that a careful period to the medical methods of the streets which have been made; side walks, whether new or repaired, whether renorces or granife; crass walks the same; cushing used, whether exactle or wood; culverts built, whether wood or stone; gutters paved, e.e. I would common his report to each and every one of you that you may have a thorough nodretanding of the department, which is the spinet of more criticisms than all the rest, pracipally because it is more accuratly used, and observed. You will see by his report that the gravel hought this size by the land andounts, a soon \$1,500. Some action should be taken this year looking to the purchase of a gravel bank for that city suso.

Among other improvements, a larger amount of paving has been done this year that in any previous year, and here let me recommend for your cusheration the advisability of changing the ordinance so that the property benefit of the street shall bear its just proportion of the expense. This is the general practice in cetters was 0 dus.

It hardly seems fair to tax proporty on the back is reste and the substitute part of the town to pay for improvements made for the benefit of proporty upon any given street. This is a matter while I trust you will weigh cerefully.

**CIVI Histing the street and the accommend for proporty upon any given street. This is a matter while I trust you will weigh cerefully.

The Civil Engineer gives you a full statement of all surveys made during the year, and makes some recommendations about paving, which it will be well for you to conside: Police Department.

To lice Bepartment.

The roster of this department his best somewhat changed during the past year by the resignation of three of its members. These positions have been temporarily filled by specials. The law governing this dopertment as it moverables, does not tend to promote the efficiency so much desired by will good citizens. My opinion is, that the similar number of oilicians to be consisted, will regard to the doportment of the police force the better the results to be obtained, and to that end the legislature has been asked to change so much of the law as relates to the best of examination. If they see lift to make the change, then the mayor of the city would be principally responsible for the appearance and deporting in the force. The chief of police reports the whole unmuse of arrists furing the past year as 1400 as against 1696 for the year previous; of this minimer of the some for drunkenness as against 1603 in 1891 which indicates that the good morals of the community are stea firstly minutained. The quiet and orderly appearance of our streets and public places leave good evidence of the thickney of correlated of police and it is assistants.

Haugor Municipal Court.

miss.

Burgor Municipal Court.

During the last helf of the past year an investigation into the management of the Municipal Court has been going on add is not yet completed, but enough has been found to maticase the entire absonce of the up leastion of any good business principles. The losse manager in which the finances have been lambled dates hard, several years, and it has been necessary in many cases to refer to the records of this Chief of Police in order to ascertain the disposition of fines and costs. So cambers have been fines been managed that it is provisible that there has been any misappropriation of the timels, but a general lossentess. The system of kaping the boulst and the handling of the fines and costs will be amount to a lurge sum during a very "has a cently been banged, and it is appeted the city will now receive what just to know the change a much larger amount of work fulls upon the Judge of the Court, and it is appeted the city will now receive what just the bandling to the during a loss of the Court, and it is appeted the city will now receive what just the bandling to complete the city will now receive what just the manager of the Manicipal Judge, which is now too small to compensate for fathirds evide.

Taxation is a thing that troubles all to a greater of less except, and is often used by one of the other of the policel parties for political capital, and it is often used against a mayor or city government in order to quest on their busic cas ability.

The financial handling of the city's affairs is a subject when I believe is but poorly understool by most people, except they know that once a year they have about so much tax to pay.

As the text has been the fine may my top on while a preserve of the change to the fine may my top on while a preserve of the court of the police of the proper of the pay to the pay to the pay.

had a right to expect \$2,000. We also paid more for the school-house lot than what we reselved for the property sold \$2,000. Total expenditures not constant late when the appropriation was made. \$11,000, which accounts for one overdraw \$7,950.18.

This shows that the actual expense was kept, below the anticipated expense \$2,000.82, which is olarge a kransaction is wish, to recommend to y at for your careful consideration some changes in the financial department of the city. I would recommend the payment of a stipulated salary to the city taesarer instead of a percentage of the tax raised. It think it would be very much better for all concerned.

I would also recommend that all money padd out from the people's money recoved biaxation or otherwise, should be paid over the only treasurer's contact instead of paying lumsums to the heads of the different department is to be deat on the young different mean. I would seem to be more business like and lestingle to mistakes.

stood by most people, except they know that once a year they have about so much tax to pay.

A brief explanation may give you a little insight mot the subject that may not come and so, it is usual at the beginning of a new year, for the city treasurer, the cummittee on finance, and the may up to consult together and approximate the probable demands upon the treasury for all of the different departments; also to anticipate the dominads of the public for desired improvements which are constantly being asked for, and a thousand and one things which cannot be even anticipated.

Then they must take into consideration their chances for rating this amount; how much from other sources. Purtuagather princest way to speak of it is to take the past as an example.

Last spring it was believed that it would tax about \$268,000 to pay all bills for the year, besides what was expected to be realized from other sources, and it was approximated about what that amount might be. How well tucy independent amount might be. How well tucy independent amount might be. How well tucy understood what they were doing, and how well it has been carried only in the theory of the property sold specified from the state on account of railroad tax less than we had a right to expect \$2,000. We also paid more for the school-house lot than what we reserved for the property sold \$2,000. Total expenditures not contamplated when the appropriation property sold \$2,000. Total expenditures not contamplated when the appropriation of the property sold \$2,000. Total expenditures not contamplated when the appropriation are sold to the property sold \$2,000.

Hersey Fund.

the dislaces brong even in the lower har of the disposit of at fail, supplying the matter of the state of the

which has for years financially, been sapping our life blond away.

Byery one has wondered for years why their taxes are so high. It has falen particularly heavy upon laboring peor; with their little homes, especially those who happen to owe something upon their property; and it is for this reason and the fact that the mayor and the city coincil are often criticised for expenditures over which they have up contact, that I feel I should not have done my duty if I do not explain the mater thoroughly, and point out the time when we may reasonably expect relief.

In order to do this so that you will fully understand it. It will be necessary for me to go back about five years. I think it is well known by you sail that in 1888, the city was if the \$100,000 more than the broaded have been paid into the city treasury and so much would have been paid into the city treasury of the road 86,110,72, wit cit we should have been paid into the city treasury of the road 86,110,72, wit cit we should have been paid into the city treasury of the road 86,110,72, wit cit we should have been paid into the tax onyer has lost that. Since that time there has been part into the maxes, to wring from the tax onyer has lost that. Since that time there has been part into the maxes, to wring from the tax onyer has lost that. Since that time there has been part into the maxes, to wring from the part has lost on the road; the following amounts:

In 1891, \$20,700,01, as that when the is all paid, too tax-payer has lost that when the is all paid, too tax-payer has lost after least the second the orders of a great deed of increase who advised us not to set our road.

One year ago, a great deed of increas was man fested in the building of a direct line to Aroostook. Walle the locat excuement has somewhat smisded, great progress is being road chavaris the building of the read and it lonks now as it we might come ride to Aroostook's Dortlers be andary withoutcoing through a longer contract commercial business with Bangor.

La Court steed

la Canclysica Let me say that while our rate of law time say that while our rate of law time \$21.5 fee \$10.0 last year as compared with \$26 to 1856 that it is will high and benchmoome you must bear in mind that the extraordinary large amount of \$35.655 while we have to provide for this equit to make up the decompty on the R. & P. R. b. mile will in a 1 probability compet you to keep the rate the same is last your, and for that reason we shall be computed to outly that year many needed simprovenients. year, and for that reason we shall be compared to ould this year many needed improvements which ought his he made. Were it not for this effectively we could reduce our rate of insaring below? per cent this year and such have postly of money to years have increments with fawly remained to move to year the increments. Will remain you all that while we may have been elected for present the circust by opposing political puries we have all taken one can man early and we have all taken one can find the compared to the present of the circumstance. The see many other this which I should be seen plact to have spotten about but I can do so not others this with I should have been plact to have spotten about but I can do so not others this with I should not should not be suffered to the property of the countries may warrant.

Mr Boutelle stong Erryce as an officer of the Navy special stage bim sfer the work that has seen as ment to him in tougress, and to ten awars he has been the champion of every mayal interest in tongress. He has been one of the most cornest and active advocates for the up-building of the navy, and his voice was heard in this direction even before Mr. Chandler, as secretary of the Navy, signed, Makes the contracts it 1883 for the first four yes--els of the new steel bavy. Mr. Boutelle may well take; roud credit to himself for what he has done in Congress and this, together with his record of gallant and meritarious services during the Civil War, would satisfy ary people that confidence is not misplaced in such a man.

The Plaip Truth.

An impression seems to prevail in some GOV. RUSSOI OD Life It SHEAF CO. narters that the Columbian Exposition is to be cut up in some way into sections, and that the fifty cent entrance fee will hardly do more han ladmit the visitor to the vestibule. The truth is, on the contrary, that that me entrance fee will give the visitor free access to every building erected by the Exposition Company, and to all the State and foreign buildings, inclading all their exhibits. Every exhibit The Connecticut Mu and Life proper may be seen without any further

The false impression in question is due to its to the fact that there will be some side shows, some of them in Jackson Park, some H. M. FAIRBANKS, in Midway Plaisance, and some elsewhere. Those in Jackson Park and Midway Plaisance are under the supervision of the exposition management, and a certain per cent, of their receipts will go to the management. Of course the World's Fair Company has no control of what may be erected and maintained outside of their own grounds. For example, the Esqui-naux village is in Jackson Park, and there is an axira, harge for seeing, it. It is no part of the exposition proper. The fair was not goden up to show such curtosities, but it any care to see it they can. Again, lust across the atreet from can. Again, just across the street from

Jackson Park, within a stone a throw of building, is a large structure in process of erection on which is the sign "Manitoba Hotel and Exhibit." Whether there is to be any charge for seeing that exhibit or not is a matter over which the manage-If some circus company should estab-

lish a tent along side that Manitoba building, and there is plenty of vacant space for it, the World's Fair would none the less be open in full on the payment of fifty cents. The best of the side shows will he of very small importance as compared with what will be shown in any one of the fity Hall Monday morning and were at-tended by a large number of cilisens. Not only will every requisite of health

document, clear and to the point, and was the visitor, but the management has gone listence to with marked interest. The so far as to sterlize the drinking water, a sanitary precaution of great importance Again, the women of Chicago have or-

ganized a creche, where mothers may and curiosities of the building. In Washington, District of Columbia, Tuesday, March fourteenth, at half past two, 1.21., of ulphingta, Blanche, whored daughter of Jay D. and Meil Winslow Terrill, aged eight year and eighteen days.

To-DAY, Poston Athletes vill. conteild for prizes and honors in the Cyclorama Building on Tremont Street, in that City.

They arrangements for the event have been perfected by a large committee composed of members of the Crescent Boot Club and the Suffolk Athictic Cab. Prominent boxers will participate, and the programme will include several special matches. Watches specially made for the occasion will be awarded the wirners

We invice everybody interested in Sporting Goods to examine the Boston Patent Pants Company's Improved Adjustable Pants, so well adapted, and much superior to anything heretofore offered for Bycicle Riders, Base Ball or Tennis Players. We are sole Agodts for these Goods in Bangor, and have this line of Suits now ready for inspection.

It is only necessary to see these to discover their merits above anything in the Clubs furnished at Reduced Prices.

Shall be pleased to have you can and examine this line. WATERYAN'S

BANGOR.

Do You Want

A BICYCLE?

If you look '25 VI. 1073 over carefully, you will agree with us that this is a WICTONE year.

If you ride a Blaycle, no matter what make, you will you ride a Blaycle, no matter what make, you will you be eastheld until you own as WICTONE.

Why not be eastheld until you own as WICTONE.

Why not by eastheld ments on own as WICTONE.

The demands this earmon will be immense, and we wish to propose a tonce so deliveries may be promptly and at the time wanted. Send stamp for relativeye.

If you wish o'r no bargain in a second-hand wheel, we have it. Better select now as they will you guick. We invite every one to call and see the pass you have in the call and see the pass of the call of the call of the pass of Leads III Competitors. P. H. DARIN, Agent,

FEARFUL CRUELTY.

Alleged to be Practiced at Connecticut State Prison. Connecticut state Prison.

New York, March 20. The World publishes a story of cracity and inhumanity which it says is practiced in the Connecticut Shite prison at Wethersfield and the responsibility for which it places on Warden Chamberlain. It is charged that ten prisoners out of less than three hundred are driven mad every year by brutality and neglect and that the sick and dying men were thrust in dangeon cells and left there it offer. Chamberlain was one time warden of the Massachusetts State prison.

The funeral of the late Miss Emma attists and with such effect as merits only praise. It is a burlesque of a most interesting and amusting description and gives opportunity for bright music, indicrous situations, funny "business," handsome situations, funny "business," handsome was the Massachusetts State prison.
